Walkthroughs

Since this a strategy tower defense game, everyone should try your strategies before attempting on these walkthroughs, otherwise there won't be as fun as we have enjoyed. Also thanks to all people who created this game and make all those interesting discussion and walkthrough. I sincerely hope this game guide can help new players to fully understand the game and legend players can use it as a reference handbook for your ultimate defender test.

General Skills

Skills	Cost	Each Upgrade Point Gives	Usefulness	Opinion
Combat	2	+28 HP, +7 ATK, +2.79 Armor	★★★★☆	Sometime needs extra Hero strength to kill the final boss (Tarnwood)
Morale	1	+1% More Token, +0.5 Gate Defense	★★★★☆	With 50 Morale, every 1000 tokens you get 500 more
Cunning	2	+1% More Gold, +1% More Experience	★★★★★	Most important skill, with 50 Cunning, every 1000 Gold you get 500 more.
Infantry	1	+1% HP, +1% ATK, +2 HP Recovery Rate	★★★☆☆	Infantry is useful in stopping enemies, such as skeletons and bosses
Bowmen	2	+1% ATK, +1% Radius, +0.2% Piercing	★★★★★	Fast and efficient, incredibly powerful with proper +ATK Artifacts
Mage	4	+1% ATK	★★★★☆	Slow but powerful, good for high armor enemies.
*Suggestion of Order: Cunning > Morale > Bowmen > Combat, Infantry or Mage (Reset Skill Points if Necessary in Order to Advance)				

Melwen Skills

Skills	Cost	Each Upgrade Point Gives	Usefulness	Opinion
Sorcery	1	+11.2 ATK, +2 Radius	★★★★★	Most Important Skill Upgrade, But in 1.3 Will Be Different.
Wisdom	2	+2.8 Mana Points	★★★★☆	Can Release More Armageddon and Healing Spell, Useless Unless Maxed
Power	2	+7 Spell Power	★★★☆☆	More Spell Power for Armageddon and Healing Spell
Infantry	2	+1% HP, +1% ATK, +2 HP Recovery Rate	★★★★☆	Infantry is very useful with Melwen, Just build them around her
Bowmen	4	+1% ATK	★★★☆☆	Without Piercing, Archer is not as efficient
Mage	1	+1% ATK, +2 Radius	★★★★★	Slow but powerful, good for high armor enemies
*Suggestion of Order: Sorcery > Mage > Wisdom > Power > Infantry > Bowmen (Stronger Hero Always Better than Stronger Troops with Melwen)

Release Note

Version 1.4 | [Defender Chronicle 1.4](#)

New Features

- A new map: Elven Capital Syria
- A new enemy: Trojan Horse
- New progressive difficulty level (Unattainable) and new reputation (>7). Enemy troops will become stronger as you advance in reputation.
- More customization options for freestyle: duration, difficulty, enemy types, bosses, handicaps, etc.
- Random enemy troop may appear on the world-map. Defeating this troop is optional but will give item reward.
- Receives EXP and token reward from extended and classic mode.
- A new type of wand
- New ultimate artifact
- New potions
- A new spell
- More items for both heroes
- New secrets at the Great Library
- More OpenFeint Achievements
- Item trading (if possible)

Version 1.3 | [Defender Chronicle 1.3](#)

New Features

- New map "Helegom"
- New enemy that can attack mages: Banshee
- New system for item grades and ranks based on hero reputation. Powerful items will also require high reputation to wield.
- More tokens from freestyle mode (up to 18 tokens + bonus from morale skill)
- Removed Elf Hut level 2 secret (Elf hut level 2 is unlocked for free now)
- New: Boss Bestiary
- Updated Orc Bestiary to include Banshee
- Some more secrets at the Great Library
- New magical enhancement to improve Resist rating. Resist works similar to Armor but it reduces damage against magical attack, such as the ice attack from Banshee. Armor doesn't reduce damage from magical attack.
- New graphic for double gold star
- Stronghold and new mage hero are now unlocked after Helegom (not after Tarnwood)
- Ultimate helm (see below)
- Tahl Asel now does triple damage against golems and requires Reputation of Renowned (5) to wield.
- On Silverkeep, Melwen will be replaced with Archmage, thanks to Closter Cheesy
- Achievements and Global Leaderboards via Open Feint (see below)
- New options: Vibrate and HQ Graphics
- Enhancements from Berserkers and Rangers now affect Barog and Orrin
- Improved bestiary: bestiary will now show enhancements from items (see below)
- Misc bug fixes

Version 1.2.2 | [Defender Chronicles 1.2.2](#)

New features

- OS 2.0 compatible
- A new hero: Elf Priestess
- New building: Stronghold (complete Tarnwood quest)
- New spell: Armageddon (equip Orb/ Talisman)
- New spell: Healing (equip Orb/ Talisman)
- New secret: Auto refresh store
- New secret: Level 2 Elf hut
- A bunch of new items for mage hero
- New graphic for regular arrow and poison arrow
- New graphic for giant effect (the golden halfling at Tarnwood)
- Defeat is now recorded in Log Book
- New menu background
- Misc bug fixes

Version 1.2.1 | [Defender Chronicles 1.2.1](#)

New features

- Your wish is granted: New Legend difficulty!
- New voices for the advisor
- New RANK system for items
- Item enhancements for mages will now apply to archmage too.
- Harder Tarnwood for Novice
- Fixed grammar errors
- Spirit and Cavalry skills (and related item descriptions) are hidden. They will be restored after the associated features are in.

Version 1.2 | [Defender Chronicles 1.2](#)

New features

- New map: Tarnwood.
- Introducing the Legendary Sword of Thal Asel and a new enemy worthy of your newfound power.
- New potion system (see below).
- New building: magic store (unlocked after Tarnwood).
- 3 new potions: Elixir of Forgetfulness (reset skill), Elixir of Humility (reset hero's level), Healing Potion.
- Level 2 trade shop access with a bunch of new items.
- New secret at Great Library: 2 new in-game soundtracks
- Updated info in Bestiaries (both Orc & Human)
- Higher initial live and gold for Novice difficulty
- Removed item enhancements for Spirit & Cavalry (except Crown). We'll restore these once the associated features are in.
- Item info will show which heroes are capable to equip it (a new hero will be added in 1.3). We are adding the info now so it can help you to figure out which items you want to keep.
- Added back Auto-flip
- Adjusted (again) EXP system: linear growth of EXP requirement to allow high level hero and you can get more EXP from longer map.
- Morale skill now gives extra token.
- Added EXP and level gained in Log Book.
- More detailed info for hero (touch the Hero portrait).

Version 1.1 | [Defender Chronicles 1.1](#)

New features

- OS 3.0 features: iPod Library access, Artifact Hunting Challenge!
- Enhanced music and sound effects.
- Adjusted EXP requirement for leveling up hero.
- Get more tokens on freestyle mode.
- New difficulty level (Novice) for easier gameplay.
- Miscellaneous bug fixes (crash issue, cunning skill).
- Disable auto-flip (on occasion, it flips continuously and we had to remove it to conform to Apple)
- 2 new rare items in Trade Shop

Version 1.0 | [Defender Chronicle Release Thread](#)

New features

- The first and only 2D platform tower defense with a unique blend of role-playing adventure.
- Choose from the 5 game modes – story, freestyle (random), extended, classic and classic extended. Freestyle mode provides random enemy waves.
- Take on the 4 difficulty levels – casual, veteran, master, heroic. Each difficulty level is designed carefully for a specific audience and each can be won with perfect score.
- Fight a variety of enemy bosses – from Gnoll Captain, Orc Chieftain, and Queen Goblin to the fearsome Wyrms Rider Duo, Awe Inspiring Giant Golem and Meat Chomping Slimeballs.
- High production value – fun storyline, 7 original music soundtracks, spatial sound effects, voice-actings, hand-drawn graphics, intuitive controls, auto-save, auto-flip, fast-forward.
